# Killing dragons

25 1 3

## Chapter 1 by lcraft68

Is it possible to ride or even tame a dragon? Nah, in my village we don't hunt the dragons. They hunt us. Every night one of us disappears but we already know what takes them. I guess I'm the only one who worries. My name is stark. I'm 18-years old. Dragons used to be extinct but some stupid scientist decided bring dragons back to life. This happened 2 years ago and now we are being attacked.

## Chapter 2 by Kaden Kirk

A swarm of 20 dragons heading our way, each of them the size of a horse. About a mile away. We heard the alarm horns go off, and the elders and children were sent to the undergrounds. "Load the catapults!" I heard a soldier scream. We had 10 of them on every side of our village, this time, they were coming from the West, where the dens of the Shard dragons are. Each of the dragons covered with sharp armor, they are very hard to kill and very deadly. 2 men for each catapult lifted a giant boulder onto the catapult. The rest of us were ready to pelt them with bows. If you hit a certain spot on their chest, they will come plummeting to the ground.

"Wait for it... 3... 2... 1... FIRE!" Instantly 10 boulders went soaring towards the dragons. Three

boulders were judged to have hit their mark. The first one hit the dragon in the chest, it plummeted to the ground. The second one hit the dragon in the chest, it plummeted to the ground. The third one hit the dragon in the chest, it plummeted to the ground.

down, breathing flame. The last thing I remember was the screams of men and women, and something smashing against my head.
